|----------------------|---|
| Project: | Water and Sewerage Programme Macedonia, Phase II – Procurement of Works for the Municipality of Gevgelija |
| Bidding procedure: | Single stage international competitive bidding procedure with qualification |
| Sector: | Water supply, wastewater/stormwater disposal |
| Country: | Republic of North Macedonia |
| BMZ Nr.: | 200966408 |
| KFW Procurement No.: | 507045 |
| Submission Date: | 14 July 2021, 11:00 AM |

Background:

The JP KomunalecGevgelija has received financing from KFW toward the cost of the Water and Sewerage Programme Macedonia, Phase II, and intends to apply part of the proceeds toward payments under the contract for the procurement of Works in the Municipality of Gevgelija. This contract will be financed with grants by German bilateral co-operation, through KFW.

Planned activities:

The project includes the construction and rehabilitation of water supply networks, stormwater sewer networks and the procurement of equipment in the municipality of Gevgelija. The project will include five Measures G1 – G5:

- G1 - Rehabilitation of water supply pipeline Gevgelija – Bogorodica
 - Water supply pipeline - DN 100, length approx. 640 m
 - Water supply pipeline - DN 150, length approx. 1640 m
 - Water supply pipeline - DN 200, length approx. 4140 m
- G2 - Construction of water supply pipeline to Negorci and Prdejci
 - Water supply pipeline - DN 250, length approx. 2820 m
- G3 - Construction of storm sewer network in the streets JosifJosifski, RistoFarsinin, Ilenska and surroundings
 - Storm sewer - DN 300, length approx. 150 m
 - Storm sewer - DN 400, length approx. 1250 m
 - Storm sewer - DN 500, length approx. 1130 m
 - Storm sewer - DN 600, length approx. 1710 m
 - Storm sewer - DN 800, length approx. 1660 m
 - Storm sewer - DN 1000, length approx. 530 m
- G4 - Construction of storm sewer network in the streets Nikola Karev and part of Sermeninska
 - Storm sewer - DN 500, length approx. 670 m
 - Storm sewer - DN 400, length approx. 320 m

- G5 - Equipment: Distribution valves for water supply network; Procurement of customer meter with wireless reading modules; Procurement and installation of bulk flow-meters
 - Bulk flowmeters – pcs. 14
 - Customer water meter – pcs. 2250
 - Valves various DN – pcs. 100

Measures G1 – G4 shall be implemented mandatory, while Measure G5 shall be implemented optionally depending on the availability of remaining funds, after the tendering process.

Time for completion of all works is **500 days**.

Minimum qualification requirements:

Bidding will be conducted by means of the International Competitive Bidding procedure with qualification (two envelopes) as specified in the KfW Guidelines for Guidelines for Procurement of Goods, Works and associated Services in Financial Cooperation with Partner Countries (“KfW Guidelines”). The minimum qualification requirements include amongst others:

- **Financial Capabilities - Liquidity**

Access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means (independent of any contractual advance payment) sufficient to meet the construction cash flow requirements estimated as EUR 450,000 for the subject contract(s) net of the Bidders other commitments

- **Average Annual Construction Turnover**

Minimum annual construction turnover of 3,000,000 EUR, for the last 3 years, calculated as total certified annual payments received for contracts in progress and/or completed

- **Specific Construction & Contract Management Experience**

Similar contracts, satisfactorily and substantially completed as a prime contractor, joint venture member, management contractor or subcontractor between 1st January 2016 and application submission deadline (i.e. 2016, 2017, 2018, 2019, 2020) of minimum value 2,000,000 EUR

- **Construction Experience in key activities**

Minimum construction experience in the following key activities successfully completed:

- Experience with construction of water supply networks in urban areas with a minimum length of 10 km and a diameter of at least 100 mm.
- Experience with construction of sewer networks in urban areas (wastewater and/or stormwater) with a minimum length of 10 km and a diameter of at least 200 mm

- **Certificates**

Availability of a valid ISO certification as below or internationally recognized equivalent:

- Quality Management certificate ISO 9001
- Environmental management certificate ISO 14001:2014
- Health and Safety certificate OHSAS 18001

- **Experience in Projects with significant environmental, social, health & safety (ESHS) Impact**

For contracts completed and under implementation as prime contractor, joint venture member, management contractor or subcontractor on or after the first day of the calendar year during the period stipulated (2016, 2017, 2018, 2019, 2020), a minimum specific experience relating to the following ESHS requirements:

- ESHS challenges: Management of ESHS impacts of similar construction works in urban environments
- ESHS measures: Contracts requiring to submit and implement an Environmental Management Plan and a H&S Plan by the Contractor
